

Practical Gen AI proficiency

Small Company

Make Gen AI useful before it becomes risky.

EA3 helps small teams build practical Gen AI proficiency through guided practice, safe workplace judgment, prompt improvement, and visible progress.

FOR TEAMS OF 5-50 EMPLOYEES

Starter Company Pilot

\$4,500

Up to 10 employee seats.
Additional pilot seats at \$450 each.

Clean pilot. Clear decision.

A practical company rollout model

STARTER COMPANY PILOT

Why this buyer cares

- Employees need useful AI habits, not another video library.
- Small teams cannot afford privacy mistakes or sloppy AI output.
- The owner needs to know who is progressing and where support is needed.

What EA3 gives them

- Prompt-first practice with up to five improvement turns.
- Human review, privacy boundaries, and escalation built into the learner path.
- Estimated AI usage and cost visibility for owner oversight.

Recommended pricing

Package	Price	Notes
5 seats	\$2,495	\$499 per employee
10-seat pilot	\$4,500	Recommended starter package
15 seats	\$6,750	\$450 per added pilot seat
Continuation	\$49 / learner / month	Optional after the core program

Pilot shape

- One complimentary executive sponsor seat for the owner, CISO, or training lead.
- 30-day learner path with role-grounded scenarios and Prompt Champ practice.
- Owner visibility into progress, Skill Checks, Prompt Champ shields, support needs, and AI cost.
- Designed for a first controlled company proof before broader rollout.

Best fit: owner-led teams that want a fast, practical AI capability lift without overbuilding a training department.

Pricing is a recommended starting model and can be adjusted for scope, support, procurement, and rollout timing.
